

Yaroslav Leonets

Ukrainian artist based in Kyiv

ABOUT ME

Born on November 12, 1994 in the city of Khmelnytskyj, Ukraine.
I studied from 2012 to 2021.

I engaged in art activity. I work in styles as realism, impressionism and expressionism. My favorite genres: landscape, genre painting and portrait. In my artworks I strive to convey the beauty of nature and the relationship of man with nature. I also work on social topics, topics in which I address inner experiences, and topics that highlight the connection between man and nature and identification. And also on environmental and legal issues. I create paintings and graphic works, as well as sculptures the most.

I experiment in finding new forms, methods, styles, and techniques. An active participant in many All-Ukrainian and international exhibitions. Member of All-Ukrainian and International artistic pleiners and art residences.

The works are in Private collections: Ukraine, Great Britain, USA, China, Switzerland, Belgium, France.

Member of the National Union of Artists of Ukraine since 2021.
